## Belle

Known as "The Goose" aka Blue Belle aka Flappy McWildosaur, Belle the parakeet enjoys sharing food with cage-mate Dodger, along with lots of grooming and playing with her friend Jessica. She is a strong flyer but restricts her airborne time to when she is outside the cage in the house. She likes her swing and started the trend where she or other birds in the flock hold on to the cage bars or toys at night while sleeping, though Sparty has since become the main practicer of this technique.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
